

Homeschool Certificate

Please complete this form after you have graduated.

To be eligible for admission into a degree or certificate program and to receive federal student aid, a student must have a high school diploma or General Education Development (GED) certificate, meet other state standards that are approved by the U.S. Department of Education, or complete a high school education in a homeschool setting that is treated as a homeschool or private school under state law.

Please provide evidence that you have completed your secondary education in a homeschool setting, or have satisfied the homeschool completion requirements of the state in which you were homeschooled, by selecting one of the choices below. You may also wish to describe the nature of your secondary education or attach a copy of other appropriate documentation.

Please select one of the two options below:

_____ I was homeschooled and have a secondary school completion credential for homeschool provided under state law.

_____ I was homeschooled, but my state does not require a homeschooled student to obtain the credential described in the above option; furthermore, I have completed a secondary school education in a homeschool setting that is not considered to be in violation of the state's truancy laws.

(Connecticut homeschoolers can check this option; homeschoolers from all other states should verify said state's laws.)

Date of graduation: ____/____/____

I certify that the information provided on this form and on any attachment is correct and complete to the best of my knowledge. If admitted, the applicant is willing to abide by all rules and regulations of the college and recognizes that any misleading information given to the college may be cause for dismissal. A parent's signature is required if the applicant is under 18 years of age.
