

## Farm Assistant

Raspberry Hill Farm in Colebrook is a farm that grows fruit, vegetables, and flowers. We are looking for an employee or intern. If this is an internship, you will have access to a faculty member who has taught about food agriculture systems and nutrition, will learn about small scale agriculture. and receive a stipend at the end of the summer. This can also be a part time job of 5-10 hours a week, paying \$15 an hour.

The applicant would help with raised bed formation, and be responsible for helping to grow, maintain, and harvest flowers and food crops. Applicant must be able to move 20 pounds of dirt in a wheelbarrow. Employees share in the bounty of the crops, as well as the joys of working outdoors and seeing gardens flourish. We work side by side in mornings or late afternoons to avoid mid-day heat. Teenagers and seniors are encouraged to apply, and no previous experience is required.

Please contact Alesia Maltz at Raspberry Hill Farm via email [amaltz@antioch.edu](mailto:amaltz@antioch.edu) or phone 860-738-7460.
